The Legend of the Rock

Nestled in the foothills west of Fort Collins stands Horsetooth Rock, a famous regional landmark. According to local legend, Horsetooth Rock is the remains of an evil giant's heart cut twice by the powerful Chief Maunamoku, thus protecting his people from the giant's wrath. Today, Horsetooth Rock is a popular destination for visitors to Horsetooth Mountain Open Space.

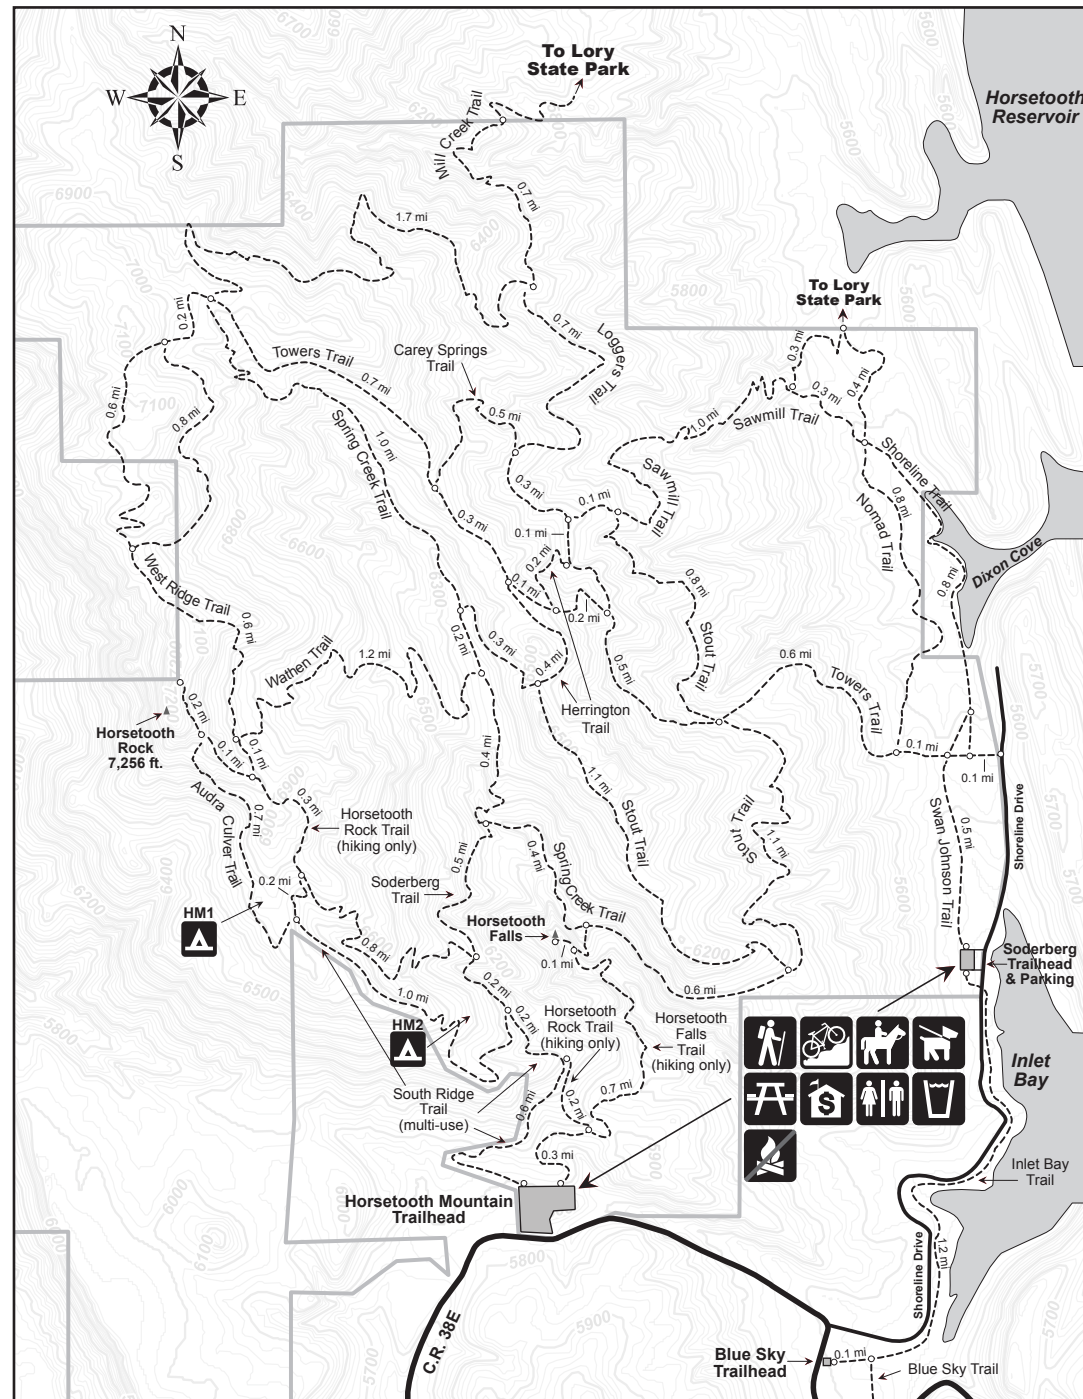

In this 2,886-acre open space, there are 29 miles of trails for hiking, mountain biking and horseback riding. The Wathen, Herrington, Soderberg and Culver families lived in this area in the early 1900s, some on family homesteads. These historic family names remain on many of the trails here.

Larimer County's Open Lands Program

Larimer County's Open Lands Program is funded by a ¼-cent Help Preserve Open Spaces sales tax. This tax started in 1996 following a citizens' initiative to acquire and manage open spaces. The Open Lands Program works with willing

landowners to preserve and protect properties through fee simple and conservation easement transactions. The future of OUR open spaces is up to you! Being a good steward of the land and shopping locally are a few ways you can help.
