Acknowledgement

I hereby attest that the above information is correct. I understand that approval of this waiver request will waive the standard Floodplain Special Review process which includes the Flood Review Board's review of the project, the Flood Review Board's recommendations to the County Commissioners, and approval by the County Commissioners. Instead, my Floodplain Special Review project will be reviewed Larimer County Engineering Department Staff or their engineering consultants in order to expedite the process. Project approval will be dependent upon their findings. This waiver does not, however, waive any of the Floodplain Special Review criteria outlined in Section 4.2.2.G.6.e.

I also understand that the purpose of Larimer County's stream crossing guidelines and requirements is to help ensure that stream crossings within the County's jurisdiction meet applicable local, state, and federal regulations. It does not guarantee that my crossing will be free from future flood damage or will not be impacted by other factors outside the scope of this analysis.
