

FRAUD ALERT

Craigslist Scams

Common Victims: Anyone
Method of Contact: Telephone / Email

In these scams, scammers offer to pay more for an item you have posted for sale with a fraudulent cashier's check or money order. They then have you wire some of the extra money back to them. By the time your bank realizes the scammer's payment is fraudulent, you have already sent them your money. Scammers advertise property for lease using information and pictures of someone else's rental property. Craigslist provides information regarding scams at <http://bit.ly/XBSVcf>.
