The Adventures of H₂O Jo and Flo

A Coloring and Activity Book Volume 1
Woooo-hoooo!!
This is the life!

That looks like fun—
but watch THIS!

Wah-hoo!

Oh yeah?

Just check this out!
Ta Da!

HA! HA!

WOW---
you're good!

HA! HA!

Thanks! So are YOU!

My name's Flo...

...hey-
don't I
know
you?
I'm H₂O Jo. 'H₂' is for my two hydrogen atoms, and 'O' is for my one oxygen atom. That makes me one whole water molecule!

Cool, huh?

Sure, but there's something special about how you look now... hmmm...

Oh yeah, I got them this summer.

I've got it—you have glasses!

Can I look through your glasses? Just this once? I promise I'll be careful!
Sure, give them a try!

WOW, I can see EVERYTHING!

Yep, me too!

I can even see things that I didn't know were there before--- in fact, I wish everybody could see them!

Whaddya mean, Jo?
Well Flo, it all started this summer when I was playing with my cousin Splash in the park. Wow, what a lot of fun! Parks and lakes and SPRINKLERS! Sprinklers are soooo much fun!
It WAS fun, Flo, but I also saw a lot of things I never saw before I got my glasses.

Like what kinds of things, Jo?

I could see trash that people threw on the ground, and I could see the fertilizer that ran off the lawn into the drain where we were swimming...
And I could see how people who owned pets...

...and worked on their cars sometimes forgot and left yucky stuff behind.

I want to tell everyone to be more careful...

...because all that stuff gets in my home!
And it makes plants and animals sick.

And people, too!

...’cause we’re all downstream!

Let's go, Jo! We can be the team that tells everyone to keep it clean...
Did you know...

Litter on the ground can get into our creeks and streams...

*TIP:*

*Put litter in the trash can!*

Pet waste contains bacteria that may end up in our local waterways.

*TIP:*

*Scoop the Poop!*

Fertilizer from your lawn can run into our streams and hurt people and animals.

*TIP:*

*Use fertilizer sparingly!*

One gallon of oil can contaminate up to one million gallons of water.

*TIP:*

*Recycle used motor oil!*

Keep it clean

'cause we're all downstream!

KEEP IT CLEAN on the way to the stream

Find these Words:

CLEAN  DIRT
WATER  FISH
POLLUTION  FROG
CREEK  SWIM
LAKE  DRINK
FERTILIZER  HEALTH
OIL  WASTE

DEAD ENDS
- oil
- Trash
- Fertilizer
- Dog poop
