Conservation Development – Review Criteria (Section 5.3.4 of the Land Use Code)

To approve a Conservation Development, County Commissioners must consider the following review criteria and find that each criterion has been met or determined to be inapplicable:

A. The proposed Conservation Development is compatible with existing and allowed land uses in the surrounding area;
B. The applicant for the proposed Conservation Development has demonstrated that the proposed Conservation Development will comply with all applicable requirements of the Land Use Code;
C. The proposed Conservation Development will result in no substantial negative impact on environmentally sensitive areas or features, agricultural uses or other lands;
D. Approval of the proposed Conservation Development will not result in a substantial adverse impact on other property in the vicinity of the proposed Conservation Development; and
E. The recommendations of referral agencies have been considered.

DEFINITIONS

Growth Management Area – Those areas of the county that are included in the growth management overlay zoning district and are subject to an intergovernmental agreement between the county and the applicable city or town.

Residual Land – An area designated to be protected from development.

Conservation Development Process Guide

Applicability

If the original parcel is 30 acres or greater in size and is outside a Growth Management Area the Conservation Development process must be used.

Purpose

The Conservation Development process is intended to ensure that residential development on parcels of 30 acres or more (outside Growth Management Area districts) are creatively designed to maintain the open character of rural areas and protect agricultural uses and environmentally-sensitive areas while allowing development that is consistent with the density of the zoning district. A Conservation Development is accomplished by clustering development on lots smaller than would otherwise be allowed by the zoning district and by keeping the remainder of the site in residual land.

Overview

In the Conservation Development process, four (4) phases need to be completed.

**See the next page for detailed information of each phase**
**Objective**

The Conservation Development process is designed to address the technical and compatibility aspects of a proposed land division and identify issues or concerns prior to proceeding with a Public Hearing for Conservation Development.

### Estimated Time Frame

- **2 months**
- **6 to 9 months**
- **1 year**
- **2 months**

### Application Submittal

- **$10,000**
- **$5,000**

### Referral Agency/Staff Review

Planning Staff will distribute copies of the application materials to other Larimer County Departments such as Engineering, Environmental Health and Building, and will also distribute copies of the application to outside review agencies such as fire districts, water districts, and ditch companies. Written comments are sent to the Planning Staff and the applicant. Referral agencies have a minimum of 21 days to review the proposal.

### Sketch Plan Meeting

This meeting will include the Applicant and Development Review Staff (Planning, Health, and Engineering). Staff will discuss comments received and will review the application for compliance with all provisions of the Land Use Code. A written report will be presented at the meeting.

### Development Review Staff

Development Review Staff will discuss any opinions or issues with the applicant before proceeding to Phase 2.

---

### Phase 1 Sketch Plan Review

#### Objective

Sketch Plan is meant to address the technical and compatibility aspects of a proposed land division and identify issues or concerns prior to proceeding to Phase 2.

#### Estimated Time Frame

Up to 9 months for up to 14 lots

- **1. Pre-Application Conference**
  - A Pre-Application Conference is an informal meeting between County Staff and the applicant to discuss the requirements for the submittal of a Conservation Development application.

- **2. Neighborhood Meeting**
  - The neighborhood meeting is held by the applicant prior to the submittal of the application. It is intended to provide communication to nearby residents about the proposal. Please refer to the Neighborhood Meeting Packet for more information.

- **3. Application Submittal**
  - Applications for Sketch Plan Review are accepted one day per month, during regular business hours. Please refer to the Development Review Calendar for submittal dates.

- **4. Referral Agency/Staff Review**
  - Planning Staff will distribute copies of the application materials to other Larimer County Departments such as Engineering, Environmental Health and Building, and will also distribute copies of the application to outside review agencies such as fire districts, water districts, and ditch companies. Written comments are sent to County Staff and the applicant. Referral agencies have a minimum of 21 days to review the proposal.

- **5. Sketch Plan Meeting**
  - This meeting will include the Applicant and Development Review Staff (Planning, Health, and Engineering). Staff will discuss comments received and will review the application for compliance with all provisions of the Land Use Code. A written report will be presented at the meeting. Please refer to the Development Review Calendar for meeting dates.

### Phase 2 Preliminary Plat/Public Hearing

#### Objective

Formal application and development standards review.

#### Estimated Time Frame

Up to 10 months for up to 14 lots

- **1. Pre-Application Conference**
  - A Pre-Application Conference is an informal meeting between County Staff and the applicant to discuss the requirements for the submittal of a Conservation Development application.

- **2. Neighborhood Meeting**
  - The neighborhood meeting is held by the applicant prior to the submittal of the application. It is intended to provide communication to nearby residents about the proposal. Please refer to the Neighborhood Meeting Packet for more information.

- **3. Application Submittal**
  - Applications for Conservation Development are accepted one day per month, during regular business hours. Please refer to the Development Review Calendar for submittal dates.

- **4. Referral Agency/Staff Review**
  - Planning Staff will distribute copies of the application materials to other Larimer County Departments such as Engineering, Environmental Health and Building, and will also distribute copies of the application to outside review agencies such as fire districts, water districts, and ditch companies. Written comments are sent to the Planner and the applicant. Referral agencies have a minimum of 21 days to review the proposal. Please Note: Some application materials may need to be revised and resubmitted or additional information may be required based upon agency review.

- **5. Sketch Plan Meeting**
  - This meeting will include the Applicant and Development Review Staff (Planning, Health, and Engineering). Staff will discuss comments received and will review the application for compliance with all provisions of the Land Use Code. A written report will be presented at the meeting. Please refer to the Development Review Calendar for meeting dates.

### Phase 3 Final Plat

#### Objective

To address conditions of approval and refine and record final documents.

#### Estimated Time Frame

Up to 1 year

- **1. Pre-Application Conference**
  - A Pre-Application Conference is an informal meeting between County Staff and the applicant to discuss the requirements for the submittal of a Subdivision final plat application.

- **2. Application Submittal**
  - Applications for Subdivision final plats are accepted during regular business hours. Please Note: The final plat must be submitted within one year from the date the preliminary plat was approved.

- **3. Referral Agency/Staff Review**
  - Planning Staff will distribute copies of the application materials to other Larimer County Departments such as Engineering, Environmental Health and Building, and will also distribute copies of the application to outside review agencies such as fire districts, water districts and ditch companies. Written comments are sent to the Planner and the applicant. Referral agencies have a minimum of 21 days to review the proposal. Please Note: Some application materials may need to be revised and resubmitted or additional information may be required based upon agency review.

- **4. Development Construction Permit**
  - A Development Construction Permit must be obtained prior to making any site improvements. Please contact the Engineering Department at 498-5700 for more information.

- **5. Building Permit**
  - A building permit must be obtained prior to the construction of any buildings. Please contact the Building Department at 498-7700 for more information.

- **6. Other Permits/Inspections as Applicable**
  - Permits and inspections may be required by other entities such as the Health Department, Fire Department, and/or the water or sewer district.

- **7. Installation of Improvements**
  - Improvements to the development such as roads, utilities, drainage facilities, etc. will need to be completed within the time stipulated in the Development Agreement and prior to any building permit issuance.

Upon review of the Conservation Development Final Plat application, additional information and final documents are required to aid in the final approval and subsequent recordation of the development.

- **Conditions of Approval**
  - Specific provisions that need to be completed within a given time frame as set by the Board of County Commissioners.

- **Development Agreement**
  - Formalized agreement between the County and the owner, prepared by Staff.

- **Final Plat and Associated Documents**
  - Submittal of final mylars and any other associated documents such as covenants, maintenance agreements, etc.

- **Guarantee of Public Improvements**
  - The final form of collateral is collected to guarantee the completion of improvements.
