CERTIFICATION OF NO-RISE

This is to certify that I am a duly qualified registered professional engineer licensed to practice in the State of Colorado.

It is to further certify that the attached technical data supports the fact that proposed or as-built _____(Name of Development) activities in the floodway will not create an adverse rise or drop in the 100-year flood elevations or impact the 100-year flood elevations, floodway elevations, or floodway widths on _____(Name of Stream) in accordance with Section 4.2.2 of the Larimer County Land Use Code at published cross-sections in the Flood Insurance Study for Larimer County revised on February 6, 2013, and will not create an adverse rise or drop in the 100-year flood elevations or impact the 100-year flood elevations, floodway elevations, or floodway widths at unpublished cross-section in the vicinity of the proposed development.

Attached are the following documents that support my findings:

Date: _____
Signature: _____
Printed Name: _____
Title: _____
