

LARIMER COUNTY OFFICE OF EMERGENCY MANAGEMENT

COMMUNITY ASSET MAP - LC101

For your homework, we are asking you to create an asset map of your neighborhood/community. Resilient communities are those that know how to access valuable resources or have connections with neighbors.

Instructions:

- 1.) Draw a map of your neighborhood/community
- 2.) Designate particular “resources” or “assets” of your area that you feel contribute to the resilience of your community. See below for some ideas:

Neighbors with Specialized Skills (i.e. doctors, EMTs, Carpenters), Community Gardens, Faith-Based Leaders, Shelters, Grocery Stores, Food, Transportation Services

- 3.) Be prepared to discuss your map with the OEM representative during class.
