

1041 PERMIT APPEAL PROCESS GUIDE

Purpose

State Statutes allow local governments to designate certain areas and activities of state interest and require permits for development involving those areas and activities. This is a discretionary approval process by the Board of County Commissioners. An appeal from the 1041 Permit requirements is allowed upon approval of the Board of County Commissioners based upon a finding by the County Commissioners that the purpose and intent of the regulation is met.

Review Criteria

The Board of County Commissioners shall consider each of the following review criteria and make findings pertaining to each one which, in their discretion, applies to the appeal.

1. Approval of the appeal will not subvert the purpose or intent of Section 14;
2. The development or activity has received approval through a state or federal permitting process which has utilized review criteria substantially the same as those contained in this regulation, and which has afforded a similar or greater amount of input by affected citizens and property owners of Larimer County;
3. In the case of siting and development of a new domestic water or sewer transmission pipeline, evidence has been provided that:
 - a. the proposed pipeline is located entirely on property owned by the entity proposing the activity and/or within easements or rights-of-way that have been acquired from willing sellers, or
 - b. the proposed pipeline is located entirely within a Special District organized under C.R.S. Title 32, or a Public or Local Improvement District organized under C.R.S. 30-20-Parts 5 and 6, and
 - (1) the pipeline is intended to provide water or sewer service to properties located within that District in Larimer County; and
 - (2) written notice of all scheduled public meetings of the District concerning the siting and development of the new pipeline has been given to all property owners who may be directly affected by the activity, and to the County Commissioners, not less than fourteen (14) days prior to the meeting.

OVERVIEW – 1041 PERMIT APPEAL PROCESS (see Section 14.7 of the Larimer County Land Use Code)
